ATMC Receives National Recognition with the Smart Rural Community Showcase Award

ATMC has received the Smart Rural Community Showcase Award from the NTCA - The Rural Broadband Association, a designation which recognizes the efforts of rural telecommunications providers who deliver technologies that make rural communities dynamic places to live and do business.

ATMC’s long history of providing services to the area and its ongoing Network Upgrade and Expansion Plan was a major factor in selection for this prestigious award. Upon plan completion, more than 4,000 of Brunswick County’s most rural residents will have access to broadband speeds up to 500 Mbps and fiber optics will be deployed to key business districts, area beaches, and growing residential areas in Brunswick County.

“We are extremely excited about this award,” said O’Neal Miller, ATMC CEO. “ATMC has made it a part of our mission to improve and help foster growth in this community. We continue to invest in rural areas where large national providers refuse to serve and we understand how important it is for residents and businesses here to have access to advanced technologies that enable innovation and encourage growth. Designation as a Smart Rural Community provider recognizes our commitment to improving the lives of those living and doing business here in Brunswick County.”

Tell Your Story with Video
ATMC-TV Offers Creative Services for Area Businesses

Let ATMC-TV’s Creative Services team tell your story by developing video that will get your business noticed online or on TV. Capture the shot you need in our studio, at your work site or from high in the sky with state-of-the-art equipment.

“Businesses need quality video content to promote their products and services. ATMC-TV can help by creating commercials, testimonials, or short videos that can be used on social media platforms like YouTube, Facebook, Pinterest or LinkedIn,” said Aaron Varnam, video production manager at ATMC. “We can provide everything you need, from scripting and editing, to delivering a finished video.”

Aerial footage is also available for businesses such as real estate companies, golf courses or developers, and our experienced staff is one of the areas only FAA drone certified production teams.

ATMC-TV Creative Services offers video solutions for any size budget. To find out more about how we can help tell your story visit www.atmc.com/creativeservices or call 910-755-1770.
As part of Project 2019, many ATMC members living in the Longwood community now have access to Internet speeds up to 200 Mbps and many others are on schedule to receive access by early March. The Supply, Ash and Sunset Harbor communities as well as areas west of Shallotte on Highway 130 will be completed by the end of the year.

To sign up for faster Internet or to find out when your area will be upgraded, visit www.atmc.com/Project2019 or call 910-754-4311.

ATMC wants to connect with you on Instagram! Check out our feed for all the latest news about our services and what we’re doing in the community. To follow us, visit instagram.com/atmcconnect.

Spotlight your business by advertising in this year’s ATMC Telephone Directory and get a listing that can be accessed online or in the ATMC Search App. Data Publishing, the only authorized yellow pages sales agent for ATMC, will be contacting existing advertisers. If you would like to learn how to grow your business by advertising in the ATMC Telephone Directory and ATMC Search App, call 888-328-2782.
